Customer Reviews

Tried a recipe from here tonight and it was good, really good. Over all I like this cookbook there is one thing I did find wrong with it though. The Raisin Pecan Cookie recipe is all wrong. it calls for ground turkey, ground beef, and ground pork..and to serve it with pasta. Don't think i will try those cookies, no Pecans or Raisins, lol

I'm eating low-carb, and this recipe book provides me with good options when I have a yen for baked goods. The recipes I've tried have been very good. Happy with this purchase.

Was not much in this.

ok

Really like these recipes. Best I have found so far. Easy recipes to follow. Full of things I like.Worth the download.

a very good little book. read it carefully if you really want to use coconut flour. having a daughter w celiac, this has some very good recipes and plenty of ideas to think about.

This little book is packed with wonderful ideas, in breakfast, snacks and great dinners, I have tried so many of these, I can not tell you, how great these taste, you will have to try them, believe me when I say you will really love the recipes.

If you looking to put this to action, go to nearest Costco and purchase the organic coconut flour.Then, checkout the Rosemary Herb Meatloaf and Cinnamon Apple Scones.While giving up gluten, the recipes for baking call for a large amount of eggs.
