My 10 year old daughter is obsessed with this book. Even now so long after Christmas she consults this book regularly to practice new hairstyles. She was quick to tell me how I was damaging my hair by washing it everyday and has placed me on a strict hair care regimen. Nice, right? I don't follow it, but she loves telling me everything she has learned in this book. I know who to consult when I have a braid question and I get pampered when she practices these hairstyles on me. So, yah, I think it is a 5 star purchase for EVERYONE - except maybe little brother who runs screeching from the very site of a comb or brush!

Bought this for my 12 year old niece for Christmas because she loves Katniss Everdeen and Katniss wore braids. My neice is still learning new styles from this book nearly a year later. Very good for blonds because you can really see the more intricate braiding.

I bought this for my wife because she is a cosmetologist and enjoyed doing hair styles for herself and other women and little girls but she wanted to learn some new stuff and styles, and she has sure learned a lot through this book and has been practicing with our neice and comes out very good for her

I already knew how to braid and French braid so I got this book for some new ideas... Very disappointed in what I received. Not only did I already know how to do almost all of the braids and flips, the ones I didn't know how to do were not explained very good at all! I mean this book reads like stereo instructions... the explanations and the pics don't match and like I ad there was only 3-4 braids that I didn't already know! I'm not involved in cosmetology at all just a home style my own hair gal and this book didn't help me at all... 3 stars if that...

My daughter loves this book! She's really into hair. This is the perfect braid starter book. Easy to follow step by step instructions. She practices on the manquinne I bought her.

Not enough details.... Unable to use book you can't really know what to do because you don't see exactly how the braid is done

Fabulous hair styles for STRAIGHT hair. Book includes NO styles for Curly or Ethnic hair. the Braids are lovely, but i'm disappointed.

Abby nails it every time, she's on youtube walking through steps as well. These are wonderful hairstyle ideas and most are pretty easy to follow the pictures. It will be your hair type that will throw you off and say it "doesn't work" but give it a try and make sure not to expect a lot from freshly shampooed hair, she points this out as well...."dirty" hair makes for amazing hairstyles.
