Customer Reviews

"This publication would be a useful resource for Health Care Assistants, particularly those undertaking study. It would also be extremely useful for nurses or educators who are involved in educating Health Care Assistants, as all components of the package could be utilised in a number of ways." Nurse Education in Practice, 2009 "The text provides an insight into basic clinical skills" Overall, this is an interesting book with some useful content." Nursing Standard, July 2009

Very comprehensive, packed full of information for the CNA student, and a permanent reference for the experienced CNA. This book goes far above and beyond the data that is required for a CNA candidate to pass the State Exam. Much of the data will be useful to those CNAs who advance to LPN/RN licenses. 50 chapters full of information. This is a very good textbook to own and keep on hand for healthcare professionals who want to keep their skills sharp. Easy to read. Worth keeping in your permanent library. Some CNA schools loan you this textbook during their course. I was so impressed with the information in this book that I bought my own copy to keep.

The CNA class I'm taking wanted me to get the 8th edition but after the 1st day of class. I noticed all the homework was based on the 7th edition so I bought this book and saved a lot of money. The older editions work just the same as the newer some times, so just look into it before buying.

I was sent the Workbook and Competency Evaluation Review, instead of the "Textbook" that I had ordered. I had given the ISBN#978-0-323-04994-8 expecting the text book to take my class with, the book I was sent is ISBN# 978-0-323-05250-4. The book I was sent was true in the condition that was stated but the paper packing it was sent in had to be taped together before being delivered to my home as it was falling off.

Very good condition

Nice it was highlighted tho but it helps in getting the points and main stuff to read

There was no description of the book to let me know it was written in. Some pages were filled out with pen.

Great

Great Item! Needed for my Studies.
