We love Little Duck, which is why I purchased this cute looking Little Puppy book. My son thinks the puppy is fun when I do the puppet, just like the duck, however I find the ears get stuck in the hole, making it difficult for him to manipulate. If I purchase another Finger puppet book, I will choose one without large ears.

I think this is the cutest of the puppet books that I've read. Given to me 8 years ago with baby #1 and just bought a replacement when baby #3 ripped the first one in half.

This is so cute! My 7 month old grandson just loves this cute little book. He giggles and giggles at the little puppy puppet. Sometimes we read the story that's written in the book or sometimes we make up our own. HA! All the time he's giggling and touching the puppy and trying to give it kisses. It really has more pages and more of a story than I expected for the price so we are very happy with this cute little book! We also have the little ducky one-- I'll be looking at getting more of these for him

and for my other grandbabies.

These are super cute. I bought them for a friend's son who loves books. The finger puppet helps keep young kids' attention and are sturdy hard books.

Nice book. My daughter really likes these ones with the puppets. The story is cute and so is the puppet dog. Although, his neck is a little strangely long... of course that doesn't matter to an 8-month-old. Holds up decently to her desire to chew on the book, but like all board books, eventually warps if we let her. But overall great - would recommend the series.

I got this for my grandson's 1st birthday & he LOVED it, specially when I would wiggle the puppy around & say, "Ruff, ruff."

This book is very small and compact. It is great to pack in a diaper bag or small purse. It is hard cover and durable with a little furry finger puppet in the center. Insert your finger in the back opening and read the book wiggling the little puppy or poking it through the hole. The pictures are so cute. Unlike some other puppet books this puppet can't be removed so there is no worry about losing it. This is absolutely adorable.

A cute idea, but very poor execution. The illustrations don't support the text. So for example, a page says "throw the ball and he'll play fetch" but there's no ball in sight. You would think that the page that says "he'll chase the squirrels he can't catch" would have a picture of a squirrel. But it doesn't. etc. etc.
