## Customer Reviews

Joe Catal is a salesperson just like you. He has averaged 100+ calls per day since 1985. He has heard over 350,000 "no's" by phone-while consistently being among the top salespeople everywhere he's worked. He has sold insurance, computer-software, websites, furniture, warranties,

pet insurance, long distance services, radio advertising, and financial services. He has tested these tips "in the trenches" and they'll help you dramatically increase your own sales and appointments.

Look. Ignore the typos and editing errors. I'm a stickler for perfection too, but the bottom line is that this book is the only one that I was able to put to immediate use as a salesman. It's packed with hard-hitting truths and awesome scripts that can be easily modified for most any sale. I must have read this book 3 or 4 times, with a highlighter and a colored pencil. I applied the techniques and they were a big help for me in closing more deals. I bought a lot of sales books, but this was the only one that stood out to me since it has so little fluff and I was able to put the things I learned to use the very next day.

Great condition!

Decent book, good ideas, totally worth reading. Good for those who never cold called and good for those who have experience. Maybe you are not gonna use everything but still you will like it.

Buy this book. It is amazing. Its not slow and sluggish like many you might pick up that get a good review here and there. This guy is amazing, and it will boost your sales. Read it from cover to cover in the shortest amount of time I have ever read any book. After I finished this book and began the next...I wished I was back reading "Telesales Tips From the Trenches". Amazing. It was funny to see a few typos, I thought they had those things mastered minded through english scholars etc. Anyhow. Great Read. Great buy. Got it for less than \$10.00. One of my all time favorites. \*\*\*\*This book will help in any sales profession, not just telesales. I work for an attorneys office, and real estate on the side, and this book is number 1!!\*\*\*BUY BUY BUY\*\*\*LOOK AT THOSE REVIEWS!!!

It's a good book with lot's of clear tips but most of them are for corporate sales and not consumer marketing.

My good friend was in sales for awhile and was running into a rut. So I purchased this for him and he loved it!!

I am new to telemarketing, and the book was simply out standing! It may be somewhat simplistic for the experienced person, but the creation of the scripts and other tips proved to be invaluable.

Down to the point and real but, professional. As a salesman would.
