This is a beautifully assembled book! I have been to the Sistine Chapel many times. This is a roadmap to that extraordinary ceiling. Tells you what you are going to see and where it is in the Chapel. If you are contemplating going to Rome, worthwhile for you to get this first before touring the Chapel. It will give you a good appreciation for what you are looking at. Also, considering the many distractions when you go there, this will help ground your tour and give you a better appreciation for this extraordinary space.

One of the most affordable books on the Sistine Chapel and yet with a look and feel of a much more expensive book. Every panel of the chapel is accompanied with a Scripture quote and a description of the painting. The author provides a significant overview of Michelangelo and this great work of art in a substantial Introduction worth reading. An inspiring way to spend an evening or two meditating

on art and spiritual themes and ideas. Highly recommended!

Love this book! When you visit the Sistine Chapel you cannot stay for very long. With this book, you can look as long as you like. This would be great to see/read before or after a visit to Rome!

got this for my granddaughter for her 21st birthday because she is an artist. it is a close-up scene by scene of the Sistine Chapel. Great for anyone who has been to see the chapel or is going. also good for artist to see the close up details of the each section of the ceiling.

This made a great gift for a couple we had traveled with. We had visited the Sistine Chapel together and this was a beautiful picture book at a great price. I don't really write detailed reviews, but I will say that I would now like one of these books for myself and I wish I had flipped through it before my tour.

A fine art book for a very reasonable price. This ceiling artwork images are high quality. An interesting introduction on the history of the Sistine Chapel and Michelangelo. Biblical references and a description are provided for each image. Highly recommended!

I loved that each page was dedicated to one panel. The graphics were great and the description of the art work was very informative. I need to go back there with this book in hand!

Excellent book with colorful glossy photos telling what each separate paintings of the Sistine ceiling are about. He painted it standing up. He didn't learn too much about painting. Was a sculptor that transformed him as a genius first. Even if a person is an atheist, it's a good short history of what this genius could do. Good text. Good book cover. A keeper.
