Argo Brothers Math Workbook, Grade 5: Common Core Multiple Choice (5th Grade) 2017 Edition

Synopsis

This book is your comprehensive workbook for 5th Grade Common Core Math. By practicing and mastering this entire workbook, your child will become very familiar and comfortable with the state math exam and common core standards. This 5th Grade Common Core Math Workbook (Multiple Choice) includes: • 20 Weeks of Daily Multiple Choice Practice • Weekly Assessments • State Aligned Common Core Curriculum • End of Year Assessment • Detailed Video Answer Explanations to all questions in the workbook To access video explanations, please visit www.argoprep.com For practice with Free Response questions, be sure to check out Part II of our workbook titled: Common Core Math Workbook, Grade 5: Free Response, Everyday Practice (5th Grade) Each question is labeled with the specific common core standard so both parents and teachers can use this workbook for their student(s). This workbook takes the Common Core State Standards and divides them up among 20 weeks. By working on these problems on a daily basis, students will be able to (1) find any deficiencies in their understanding and/or practice of math and (2) have small successes each day that will build competence and confidence in their abilities. We know the common core can be challenging. For that reason we have decided to provide detailed video explanations to each math question. If your child is having trouble with any questions, you can easily access our video explanations where an instructor will show the student how to get the correct answer. We strongly recommend watching the videos as it will reinforce the fundamental concepts. Please note, scrap paper may be necessary while using this workbook so that the student has sufficient space to show their work.

Book Information

Paperback: 146 pages

Publisher: Argo Brothers Inc (September 23, 2016)

Language: English

ISBN-10: 0997994827

ISBN-13: 978-0997994827

Product Dimensions: 8 x 0.3 x 10 inches

Shipping Weight: 12 ounces (View shipping rates and policies)

Customer Reviews

Anayet Chowdhury CEO & Co-Founder of Argo Brothers is an author, entrepreneurial thinker, and educator who has helped thousands of students gain acceptance into top colleges and high schools. Anayet discovered his passion for teaching in high school, where in his free time, he conducted cancer research at Memorial Sloan-Kettering Cancer Center. His cancer project was awarded multiple gold-medal awards and he had the privilege to present his research to President Obama. Anayet is also a Founding Board Member of Teptu, a non-profit organization aimed at finding the most innovative students in the realms of S.T.E.M research and sustainable entrepreneurship. Anayet sits on the board and serves as an investment advisor to several startup companies that are in the e-learning and tech space. In his spare time, he enjoys learning to play the guitar and piano.

Vladislav Suleyman CTO & Co-Founder of Argo Brothers is an author and serial entrepreneur who has developed several educational software solutions to help students around the world. Vladislav started his first entrepreneurship venture in Central Asia where he was very successful in introducing ECO Cleaning Systems to private hospitals and organizations. Today he is an educator and motivational speaker, dedicated to making a difference for students who are struggling and cannot afford a quality education. Vladislav is an avid yoga enthusiast and regularly practices the art of meditation.

Eduard Suleyman CFO of Argo Brothers and Founder of Einstein Daycare holds an MBA from the University of Westminster. Eduard has been an educator for over a decade teaching students about corporate finance, stock market analysis and business expansion. He previously served as the Head of Technology at the Research Center of Corporate Governance and Securities Market. Aside from actively being involved in the production of K-12 and higher education test prep books, Eduard believes education starts from the very beginning and Eduard has created a custom learning program at Einstein Daycare, a licensed pre-school located in New York City, where kids are intellectually stimulated using cutting-edge learning tools.

I use this book to tutor students in math. I like the format, where the lessons are divided weekly into five days. There are Assessment problems at the end of each week's lesson and the subsequent lessons include review from previous weeks. I'd recommend pairing this with the Free Response book, but be aware that some questions are recycled. Argo brothers did not even bother changing the numbers/diagrams on some problems.

We have used this book consistently for test preparation and practice throughout the year. We have noticed that this book is missing percentage topic. Toward year end, we were doing many different percentage problems.

Good book with lot of spelling mistakes that create confusion. Couple of examples here - A. Week 1 - Day 1: Question starts with serial number 6, and last question S.No. is 11. However, answer sheet for the same Week 1 and Day 1 start with S.No. 1. (B) Week 2-Day 4: Question 2 starts with 2. $4(10,000) + 1(1,000) + 3(100) + 2(10) + 9(1) + 5(1/10) + 5(1/100)$. Which number below is one-hundredth of the expanded form above? This is confusing because question starts with "2.", and this is wrong. Question printing mistake. Good part - variety of questions and good questions. "Tip of the day" on end of the page is favorite part where it explains about how questions can be handled listed on the page. There are videos available as well that can be referenced to get the concept how to solve a question. Pattern and concept is important part in learning. This review is about 2017 Edition Part I: Multiple choice Math 5th Grade Common Core Workbook. Barcode #: 9 780997 994827 - Just thought to put this detail as well as sometimes reviews get mixed up with other.

Great books! Would recommend to 5th graders.

Easy to read, great learning! Love this book

Helpful

It's the best book for practice.

Very nice review book
