Rusty Wilson's Canadian Bigfoot Campfire Stories

Synopsis

Ready for some stories from the vast wilderness of Canada, home to the Sasquatch, revered and feared by the natives there since before time was recorded? Settle back with a cup of hot chocolate, lock the doors, and be ready to call your best friend in case you start seeing big hairy faces in the window (but be aware that your friend may also be reading these stories, so have a backup plan). These 12 all new and original stories from Rusty Wilson, the World's Greatest Bigfoot Storyteller, will keep you intrigued, hanging onto the edge of your seat, or wishing you could travel up north and see what all the excitement's about for yourself. Come read about a young man who finally gets his wish to visit one of the world's wildest places, where he quickly realizes that maybe his parents were right after all – then read about the strange case where a Sasquatch discovers a rare fossilized dinosaur skeleton – and then, if you dare, read about a woman who stops for a break on a remote Canadian backroad and ends up taking something home with her that she really doesn't want – and there's the Sasquatch that ends up saving people's lives by stealing all their food in the dead of winter – and a Sasquatch that brings a couple together through its death – one who decides it wants to be in a painting – another who likes the taste of loons – and a man who discovers a secret Bigfoot food source – all these and more great campfire tales are guaranteed to make you happy you're safe and sound in your house instead of listening to a Sasquatch screaming in the darkness from inside your thin nylon tent, deep in the Canadian wilds. Or, if you're truly the adventurous type, maybe you'll want to buy a thin nylon tent and head to British Columbia or Alberta. Fly-fishing guide Rusty Wilson spent years collecting these stories from his clients around the campfire, stories guaranteed to scare the pants off you – or make you want to meet the Big Guy! – I suspect that Canada has more wild things than we could imagine in our wildest dreams. If you take a look at a map, you'll see just how immense and rugged many parts of this country are, especially those regions in the north and around the Canadian Rockies and Coastal Mountains. I'm sure there are things out there we could only imagine, one of them being Bigfoot – or Sasquatch, as our northern friends call him. •

Just in time for the holidays comes a new Rusty Wilson Bigfoot book. If this is your first time encountering his tales, let me warn you, they are highly addictive. Skip the sample and buy the book. Then check out his other great Bigfoot Campfire tales. Unlike some other Bigfoot books, these are not horror tales, nor documentary research. The stories within have been told by his fly fishing clients and truth is often stranger than fiction. This is what sets Rusty's tales apart from many other Bigfoot books, a great deal of heart. Some are funny, heartwarming and some will make you never want to go camping again. I personally love reading about the wide variety of encounters, tales from young and old, recent and not. They are originals. Most have not shared their stories with anyone, some only with close family or friends. Rusty is often the only outsider told and he is a responsible gatekeeper, protecting the requests, often mentioned in the introductions. That respect is kept in all his books, I have all of them. The tales are told so eloquently, even reading them more than once is still enjoyable. I've also listened to the audiobooks versions (this one isn't out yet) and they are fantastic as well. Sit back, relax and enjoy, you have been warned, you will want more. If you do, try one of my favorites, Ten Intense Bigfoot tales as a follow-up. Happy reading and welcome to the wonderful world of Rusty's Bigfoot stories!

Reading this book made me want to visit some of Canada's western provincial parks. They sound

awesome. I searched some of the parks mentioned and the photos were beautiful. The stories in the book were all good and I just didn't want the book to end.

Rusty has a talent for making the mundane exciting and hints and glimpses seem terrifying. Is Bigfoot a real being or the result of a vivid imagination? Try any one of Rusty Wilson's Bigfoot adventure collections. I guarantee you'll be no closer to the answer to "is Bigfoot real" at the end than you were at the beginning but I also guarantee you will be entertained.

Rusty Wilson has another collection of stories about Uncle Hairy, this time collected on a theme of Canadian origins. Previous readers of the Bigfoot Campfire Stories series know what to expect. Nothing too new here, except the Canadian locations. Rusty has polished the anecdotal stories into some good first-person narratives. There is a good balance of stories, with Sasquatch being depicted as menacing, friendly, or just there in turn.

I love to read Rusty Wilson's books. He keeps you on edge, and tells the story from the original teller's view. They obviously saw something and Rusty gets that across to the reader. After reading the stories I don't know if I want to go camping. Just me the stars, the wild things and Bigfoot! Think I'll hunker down in my covers and continue reading!

Another page turner, Rusty. Totally enjoyed this book. My complaint is that it's not long enough. It's amazing how many people have had encounters. Each story is told by people who believe because they had real experiences. A quick read but interesting claims.

I thought the book was an enjoyable read. The stories were fast moving and made you think there just may be something to the myth

I can not get enough of Rusty's Campfire Stories! They are very entertaining and more than a little spine chilling. More please, Sir.
