Roger Priddy's passion for educating children through fun, informative and engaging books has led him to create some of publishing's most enduring and successful nonfiction early learning books. Roger lives in London and has three children, who have been the inspiration behind many of his best publishing ideas.

We just received this book earlier this week and my almost 3yo has already requested to read it several times a day, 2-3 times per sitting. My daughter loves this book and I can already tell this will be one of her new favorites. There are seven classic fairytales: Little Red Ridinghood, Thumbelina, Jack and the Beanstalk, Hansel & Gretel, Snow White, Repunzel, & Cinderella. Each story is perfectly abbreviated for a toddler and told over two pages, containing 5-6 flaps you lift open revealing a character, object, or some sort of critter telling part of the story. Cinderella, the last story

is told over the last six pages. The final three pages open up to show all the characters from the previous six stories at the ball. The artwork is beautiful and incredibly detailed and my daughter and I spend a lot of time on each page looking for the lady bugs, bumblebees, birds, and bunnies. The quality of the book is amazing. I'm always hesitant about lift and flap, but the Priddy ones (we have a couple) have always been so durable. I did pay full price for this book and was not compensated for my review. All opinions are my own and I'm extremely happy with this purchase.

I love this book and so does my 2 year old. The illustrations are beautifully done and the stories are short and precise. My only disappointment was getting the book with the flaps already opened and the edges a little frayed. I obviously didn't get a brand new book. I'm all the way in the Philippines so sending it back would cost me twice the price of the book which is not only a hassle but also not worth it.

Gorgeous artwork. my 3 year old daughter loves this book. There isn't a lot of text in this which can be both a boon and bane for parents. The child will need to know the storylines first before reading this book. The book is suited for young toddlers so they won't be reading it alone anyway. The lack of text allows the parent to be creative and tell the story differently every time (well, for me, I improvise according to my daughter's reactions and most often than not, I forget how I told it to her the previous time :))

The illustrations in this book are very pretty. The quality is also very nice. I'd give it 5 stars but I wish it told a little bit more of the included fairytales. The flaps have details from each story but not really enough to piece the whole story together if your child hasn't already heard it. Both my kids (almost 3 yr old girl & 6 yr old boy) enjoy the book.

I was actually really nicely surprised at the quality of this book for the price. It is fairly simple and doesn't have a ton of narrative, but each page has several flaps to open. Also both my three and two year old absolutely love it.

I do agree with other reviewers mentioning the flimsy flops and the short narrative part but... this book feels magical and beautifully illustrated. Both I and my 18 months old daughter enjoy it very much!

What a wonderful book! Engaging & beautifully illustrated, this is a new family favorite! Will definitely be buying more as gifts!

I like it. It looks like fun. I expect younger children are likely to tear the flaps but the book is a good quality.
