Even if you don't have any issues, you will want to read it and be informed. there are so many tips and tricks for you to save on money, be environmentally friendly, why use chemicals for insects when you can use garlic and pepper? I recommend this book for all ages alike. you will be highly pleased. The index is a great source to get to the solution for your problems. if this review is helpful, hit the button

I was hoping some of the recipes and suggestions would work, but so far, not much luck! I tried the all purpose cleaner on my floor and it made a smeary, dull-looking mess. I tried the alcohol on the poison ivy in my flower bed and it seemed to thrive; sprayed it 3 times! I am getting disgusted and don't want to try anything else. All I do is waste my "supermarket" products. Most of the "fixes" I already knew about but I think I would rather purchase an all in one cleaner from the supermarket!!

I ordered this book as a Christmas gift for my sister. After it arrived I decided to take a peek at it before wrapping. I couldn't put the book down. It is so very readable, I love the format. The household items are listed in alphabetical order and many uses for each item are given. I love the trivia listed in the book and the tips for recycling household items that you would normally toss in the trash. I told my sister I was keeping that book and giving her a different one, but let her look at the book first. She loved it and kept saying, "I have to have this book !" I ordered another copy so we both could have one. My husband even enjoys the book since he loves trivia. THE book is so easy to read, kind of like a magazine format.

ok

just ok!

Like the book.

This book is well worth the buy. It really does give you some handy tips in some of the everyday products that we use. Who knew that toothpaste on mosquito bites relief the itch.

I suggest if you don't have one of Jerry's books. Get it.
