Customer Reviews

Love this book but check out the tricks in this book I wished this book would talk about hacks but good commands I did not know it talked about few a things I did not know but I am a minecraft

expert so ya don't check out to many books because 49'7' in the books tells the same thing .

Was what I ordered.

AWESOME! It's a great book to for newbies. It not really cheats it's mostly easter eggs (hidden features). I knew most of them though. Enjoy it!

You can like this book a lot. although I am not a big fan about it. most things I already knew. I recommend skipping the cheat codes unless you do not play on computer. because I tested all of them on computer and they did not work. but a few things I did not know. this book would be good for beginners but not for expereanst players. and I am expereanst player

I bought this book for my kids. As you know, I love Minecraft and am an avid player. My kids enjoyed reading about cool little features and tricks. There was no hacks, though. My kids were looking forward to that part. (LOL) But, other than that, great solid 4 star book.

This book has so many cheats that I will be using. The author of this book is the best. I will get all of his books

I knew everything in here. These are not tips, merely stuff that any good minecraft player would know! I've been playing minecraft for about two years and I knew this the whole time I would rate this 0 stars except that it hasn't been invented.

I absolutely Love this book. It's such an awesome handbook(I have not read this book,so this is a fake review notkidding)
