Spine (Rehabilitation Medicine Quick Reference)

Synopsis

"The first in a new "Quick Reference" series in PM&R, this volume broadly covers the complex topic of spine care. Broken down into 100 conditions, the bulleted text and helpful illustrations provide a clinical roadmap for diagnosing and treating spine disorders commonly and not so commonly encountered in daily practice. Every entry features description, etiology, epidemiology, pathogenesis, risk factors, clinical features, natural history, diagnosis, red flags, treatment, prognosis, helpful hints, and suggested readings on two facing pages for easy access to key information at a glance. Every entry is standardized for quick look-up in the office or clinic, and features description, etiology, risk factors, clinical features, natural history, diagnosis, red flags, treatment, prognosis, helpful hints, and suggested readings. All Rehabilitation Medicine Quick Reference titles offer:

- Consistent Approach and Organization: at-a-glance outline format allows readers to find the facts quickly
- Concise Coverage: of must-know information broken down into easy-to-locate topics
- Fast Answers to Clinical Questions: diagnostic and management criteria for problems commonly encountered in daily practice
- Hands-on Practical Guidance: for all types of interventions and therapies
- Multi-Specialty Perspective: ensures that issues of relevance to all rehabilitation team members are addressed "

Customer Reviews

"This is a great quick reference for common spine disorders. It gives busy clinicians access to

relevant facts so they don't have to take time during a busy clinic to thumb through textbook chapters or journals and/or search the Internet. It allows them to provide patients with information more quickly and ultimately become more efficient. It does serve its purpose well as a quick reference. I found the epidemiology, prognosis, and helpful hints sections most helpful." - Susan Hillary Nack, DO, (Rehabilitation Institute of Chicago), Doody's Reviews--Susan "Hillary Nack, DO""(Rehabilitation Institute of Chicago), Doody's Reviews"" (05/03/2010)

Andre Panagos, MD, Assistant Professor, Director of Interventional Physiatry, New York Presbyterian Hospital, Weill Cornell Medical Center, Department of Rehabilitation Medicine, New York, New York. Ralph Buschbacher, Series Editor, is the Program Director and Professor of Clinical Physical Medicine/Rehabilitation at Indiana University, Indianapolis, Indiana.
