Infinity War

Synopsis

After Adam Warlock's return in 'Infinity Gauntlet', his worse half Magus wasn't far behind. The struggle for ultimate power over the universe continues when a stockpile of evil twins overwhelms the Fantastic Four, Avengers, X-Men and more. Will the universe be saved, destroyed, or both?

Customer Reviews

The sequel to Infinity Gauntlet.. great collection with the added material giving more emphasis and color to the main story..

This was a great story and a very great series. I also enjoyed the short stories at the end. It was very interesting.

Good story you have all your major character. If anything it could be a prediction of how averagers infinite war might go down.

If you love Marvel you'll love these books. The story is awesome and explains the films a little.

I got this for my husband who is a comic collector. He loved it! It is one more step towards completing his collection. Great read.

I have been filling in TPB collection holes to avoid digging through boxes of old comics when I need to reread an old storyline (such as with the Marvel Movies now heading towards these old Warlock tales). I had forgotten just how meh these stories were. Long gone was the wonder and energy of those old Captain Marvel and Strange Tales/Warlock stories. Now it's just like reading about Peter Parker clones...it just gets recycled over and over. Warlock is one of the great brooding characters Marvel created, going back to the Thomas/Kane era and then on to Starlin. By the time this collection came out, all the uniqueness had bled out and it reads pretty much like a company-wide crossover event. Not like we ever see one of those. It's fine to read, just nothing memorable.

I would like to start by saying that this compilation (2 series') does not live up to the Infinity Gauntlet series. I enjoyed this compilation very much but there are certain high and low points. The low points: The 2 series' contained in this compilation do not directly overlap; you have to switch back and forth and even then there are repetitions in the stories. The action is minimal. There is only one direct fight with the magus (the main villain of this saga) and that is in the last issue. There are series of clones who do most of the fighting and despite featuring characters such as Galactus, Eternity, and Infinity the action still does not overwhelm you. They spend an entire issue introducing us to Gamora and giving us her background, but it's basically 20 something pages of filler you could have done without. I did say there were high points. The High points: Adam Warlock who I enjoy as well as Thanos, play large roles in this series. The comic replaces action with cunning and manipulating schemes. Even though I would have liked some action, the in-depth plots are enjoyable. The art work is a given with Lim and Medina so there's no surprise there. All in all I would recommend the series to anyone who wants more out of the series, but if you're counting on it living up to the Infinity Gauntlet series, you will be disappointed. Enjoy.

Great Read. Excellent Condition. Fast Delivery. Very pleased with entire purchasing process, delivery, and product. Will buy from this source again.
