## Customer Reviews

I have used this publisher/series of tax books several semesters in a row for various tax classes. For an accounting book, I find them to be clear and concise. While the end of chapter questions don't always make sense or force the reader to make assumptions that are not necessarily accurate in the real world the in-chapter content is solid.

too expensive

The book I received was on time and brand new! Price was much better than the school bookstore.

Very informational. Also would recommend this class for accounting majors.
