I work with middle schoolers and need to know what swear words they are using. LOTS of sexual terms so don't leave it in your work desk!

I have been studying Spanish for many, many, years. I know a lot of the mainstream slang. I don't really have experience with the more "dirty" side of the language, as I have learned in educational settings and through travel. This book does provide some insight to someone like me. I like that I

can get a little bit more feel for the cultural aspect of "dirty" Spanish. One thing I did notice is that some of the "literal" translations offered by the author really aren't literal. Other than that, it can be helpful to have an understanding of this level of language, even though it might not ever be used.

I bought this as a Christmas gift for a good friend of mine. She likes to tell people that she speaks "Spanglish" so I thought this would be the perfect gift to help with her limited Spanish vocabulary. She loved it!

Quite possibly the best book ever written. You will not be sorry for buying this, just don't go practicing in the barrio. You might get shot

Using it with some of my spanish speaking friends and they don't understand some of the stuff and they say a lot of it is still proper spanish although it does tell you how to use some slang.

Got tired of telling my interested friends the juicy stuff, now they can look iy

Got this for a friend as a gift. She thought it was funny.

again easier to learn with short specific phrases
