## Synopsis

A friends-to-lovers second-chance romance from USA Today bestseller Siobhan Davis. Standalone with HEA and no cliffhanger. Lana I knew it would end in disaster, but I didn't listen to reason. I didn't care. Because I loved him so much. Calvin Kennedy ruled my heart. Until he destroyed it. Shattered it so completely that I became someone else. Someone I loathed. Someone who repeatedly lied to her loved ones. So, I ran. From him. From myself. Desperate to hide my new reality. But I could only run so far. When he reappears in my life, I'm terrified. Unbelievably scared of facing the consequences of my actions. Never mind that I still love him and want him so badly there's too much at stake now. How can I trust him with the biggest secret of all when he's likely to rip my world apart again? Calvin Lana was always far too good for me. Everyone knew it but her. I tried to stay away, but I was weak. And I hurt her. Crushed her until she barely resembled herself. Forced her to follow a path she would never have willingly chosen. And then she was gone. And my world has never felt as empty, as lonely. She begged me to stay away. Not to find her. To forget she ever existed. But that's like asking me to slice my heart in two and toss half aside. I've never believed in fate, but when I rock up to the University of Florida, I'm ready to eat my words. Because she's here. Like I hoped she would be. And I'm determined to prove I deserve a second chance. Will I enjoy this book? If you enjoy emotional, angsty, second-chance romance with hot guys and a dash of drama set within a college backdrop then you should enjoy Loving Calvin! While you don't need to read the first three books in this series to enjoy Loving Calvin, it is highly recommended. This book is upper young adult/new adult, and it is only suitable for readers aged seventeen and older due to mature content, sexual situations, and language. This book, like its predecessors, contains a controversial subject which, on this occasion, relates to something Lana did to Kal previously that some readers might find unforgivable. If you don't like being stretched out of your comfort zone, then I'd recommend you skip this book.

## Customer Reviews

“If you love someone, really love someone, you stand by them, even when they’ve screwed up. Especially then. You forgive them for their mistakes.” — Siobhan Davis, *Loving Calvin*

This is such a beautiful romance. Yes there is drama and there is angst, but in my opinion that just made the romance that much more romantic. And lordy, can Siobhan Davis write some beautiful romance!! She also wrote some great hot and heavy scenes too! Calvin and Lana are soulmates.

Definition of Soulmate in the Urban Dictionary: A person with whom you have an immediate connection the moment you meet -- a connection so strong that you are drawn to them in a way you have never experienced before. As this connection develops over time, you experience a love so deep, strong and complex, that you begin to doubt that you have ever truly loved anyone prior. Your soulmate understands and connects with you in every way and on every level, which brings a sense of peace, calmness and happiness when you are around them. And when you are not around them, you are all that much more aware of the harshness of life, and how bonding with another person in this way is the most significant and satisfying thing you will experience in your lifetime. You are also all that much aware of the beauty in life, because you have been given a great gift and will always be thankful. This is what Calvin and Lana have had since they were children and it grew stronger as they got older, until Calvin’s mother put a stop to them seeing each other. But that connection was still there, even when they tried to fight it. They hurt each other many times. It was just about killing them. Now in *Loving Calvin* they are in college. Actually Lana went to University of Florida and Calvin went there, thinking that’s where she went, and he wanted to find her and win back her love. He knew they belonged together and was willing to try whatever it took to get her back. Lana feels she’s undeserving of Calvin’s love. She’s made some pretty horrible

mistakes and hurt Calvin very badly. Even though he says he forgives her, she just cannot forgive herself. It doesn't help that she still isn't being totally honest with him and is holding back important information from him. The guilt is eating her up and making her feel unworthy of his love. The whole story is so heartwarming and the lesson of forgiveness is a big one. I loved this book so much! Every single page!! We even got some glimpses of my favorite Kennedy, Kyler, and Faye, and the family! Yay!! I totally recommend this book, in fact I recommend that you NOT MISS IT!!!\*I got a copy of this book from the author and voluntarily reviewed it\*

I received an ARC of this. I reviewed it voluntarily. I also liked it well enough that I purchased my own Kindle copy. This is my favorite Kennedy book of the series. I am quite shocked that it is considering how things were left between Kal and Lana in the Kyler books. I don't want to get all spoilery so I will just say this: What Lana did to Kal in a prior book was an absolute deal breaker for me. If I were Kal, I might be able to forgive her to give myself some peace, but I would never want anything to do with her again. There is no OTT drama in this one, and I enjoyed it more because of it. Kal sees all the pain he caused Lana and is willing to fight for her love. Lana beats herself up enough so that I don't feel the need to do so. I still don't like what she did, but I found myself cheering for this couple in spite of it. Then, in this book, she did another beyond horrible thing to him. Again, no spoilers. With these two betrayals, if I were Kal, I'd be looking into MGTOW. At least Lana has to take some heat for her poor decisions. I'm glad the author wrote that in. It would have been harder to overlook and believe if she hadn't. Kal's reaction was totally believable too. Instead of storming in, he took a day to calm down and think things through. It didn't stop him from telling her the truth though. Sorry is far too easy a word for her to say. Sorry cannot even begin to compensate for how she's treated me this time. If he had folded, and told her all was forgiven, I probably would have thrown my Kindle across the room. Instead, this: "I came to UF to fight for a second chance. To prove I could be the man you deserved, but things have changed. Now you need to prove you're the woman I know you to be, because the Lana I knew didn't lie, and she sure as hell didn't allow herself to be manipulated into doing things she wasn't comfortable with... But you're not her, and I can't believe in you, can't trust you, not when I know what you're capable of. And without that, there is no us." At this point I was fist pumping the air. Kal absolutely needed to step away and focus on himself and his responsibilities. He couldn't worry about Lana's feelings. She sure as hell didn't worry about his. If the book had ended here, I would have been fine. But it didn't. No spoilers, but I did like the ending.
