I know this will be a great book to read, just haven't much time to read lately, I will find time. Healing Secrets, natural ingredients, no prescriptions what a wonderful gift to learn how to heal from our Native Americans.

Interesting read, textured cover, mostly about steams

love it

A keeper! My Geandmother had already taught me some of them, so I had a basic idea of it it was right or wrong

Love this book. Very informative on all aspects of the herb plants. Arrived sooner than expected. Great read. This too will be on hand in my kitchen. Great recipes. Some I can remember my Granny using.

Much better books out there. I was very disappointed. Very basic

I've been cooking with my own herbs for years, but am more recently interested in medicinal herbs. This guide is a great introduction that helps me to identify naturally growing herbs as well as gives me ideas about what to plant in my herb bed.

Wonderful, compact lil book. Clear easy to read writing...a good lil resource to have in your library.
