Some parts were a little boring but still an okay read just hope the next book in the series is better

I am so loving this series!! Great job!!DRH

Coldwater Canyon gets four new residents in the persons of Dr. Faith Miller a pediatrician turned researcher, Dr. Carter Montgomery plastic surgeon to the stars and undercover charity facilitator, Betty his former assistant and her husband Mike who has a hankering for becoming a farmer. Our heroine Dr. Faith is struggling with guilt over losing her child prior to birth for an unknown reason and our hero Dr. Carter who sells his celebrity practice to join the clinic in Coldwater Canyon meet under not so gracious conditions, find they have an attraction for each other and things heat up from there. Many things befall this couple before they actually become a couple including a trip to the south american jungle seeking an answer to why her unborn child died before birth. At the end of the day, the Terrell family gets another addition to their growing friend and family list and Coldwater Canyon gets two highly accomplished doctors, a valuable physician's assistant and possibly a new farmer. I enjoyed this story about Faith and Carter who rounds out the Montgomery brothers finding love interests and I am most interested in learning who the next set of residents to this thriving and growing community will be. Shanade White, keep them coming for I am truly a huge fan.

You and me. Once again I am enjoying this series. This book is great. I enjoyed this book! I am starting to imagine the Coldwater Canyon as a real place to go to and get away from the city life. I like the simple life this town offers. Faith takes a job to be the community's doctor with the opportunity to do her research. Carter gave up the doctor job but now decided to go back to the Canyon to do his charity work. He meets Faith in an awkward situation that has him mesmerized by her and wanting to get to know her. They make a connection that Carter will fight for and go to the extreme to keep. This was a sweet romance story. Good read! *** I voluntarily read a Review Copy of this book. All opinions stated are solely my own and no one else's. ***

Faith was a determined women to find the reason behind the genetic disease that took her daughter's life. She is focused on that and does not make time for anything or one. Carter has a reputation and Faith is not interested in traveling down that road even with the chemistry between them. But eventually they do work through some things to give it a try, I was interesting in the storyline and enjoyed the book.

Faith has a focus that can't be deterred. She needs to find the genes defect that killed her daughter. This is her whole life, and she doesn't have time for anything else, so she thinks! Carter walks into her life and has her world spinning on its axis. He's everything that she wants. What she doesn't realize is that she is everything that he needs?,

Carter and Faith's story is adorable! Soulmates who finally find each other; one playboy searching for what's missing in his life and a doctor filled with grief and guilt. Would've liked to know if they had a baby. All in all, I loved this story.

I gave this book five stars because it was excellent. Carter and Faith were the perfect couple. It was sweet what Carter did when he first met Faith. I loved how Carter went after what he wanted. I loved their story but wonder what is next for them. Great job as always Shanade!! Can't wait to read your next book.
