The Ultimate Guide To Kink: BDSM, Role Play And The Erotic Edge

Synopsis

The Ultimate Guide to Kink is the first major guide to BDSM in a generation - a bold and sexy collection of essays that run the gamut from expert how-to tutorials to provocative essays that delve into complex questions about desire, power, and pleasure. The book brings together diverse voices from the kink community in an unprecedented way: each chapter is written by a different sexuality/BDSM educator. Divided into two sections, the first section features thorough, thoughtful pieces - on everything from flogging to bondage. The second section is dedicated to role-playing fantasies and personal manifestos. From age play to masochism, these chapters cover some of the edgiest, most taboo and controversial elements of kink in depth. The Ultimate Guide to Kink features the expertise of renowned educators writing passionately on their favorite subjects, including Patrick Califia, Midori, Laura Antoniou, Barbara Carrellas, Lee Harrington, Jack Rinella, Lolita Wolf, Madison Young, Hardy Haberman, Felice Shays, Ignacio Rivera, Sarah Sloane, Mollena Williams, FifthAngel, and Edge. It will educate, inspire, and challenge both newcomers to the world of kink and experienced BDSM players.

Book Information

Audible Audio Edition

Listening Length: 11 hours and 31 minutes

Program Type: Audiobook

Version: Unabridged

Publisher: Start Midnight LLC

Best Sellers Rank: #9 in Books > Audible Audiobooks > Health, Mind & Body > Sexuality #58 in Books > Health, Fitness & Dieting > Sexual Health > General #115 in Books > Self-Help > Sex

Customer Reviews

This is a great collection of essays on various BDSM related topics written by a group of phenomenal writers that should be read by both tops and bottoms. The people who have contributed to this book really know what they're talking about and is a great addition to any BDSM library.

best book I've read about this subject. Incredibly in depth and addresses the emotion BEHIND the kinks. I feel...normal after reading this book. Thank you!!

This book covers a whole lot without being tedious. Just starting to explore your kink? Get some foundations started right here. Been kinky for a while now? Get kinkier with some ideas shared here! While this is not the "be all, end all" book on ANY of the topics covered, it will help you to learn what you might not have thought about as being kink. Definitely worth reading!

This is an interesting anthology. As with most anthologies, the essays are uneven in quality. There are, though, lots of interesting ideas and specific tips for those interested in kink.

I enjoyed the chance to learn about kinks from so many points of view. This book is a great conversation starter. It gives you and your partner a common place to begin from.

It covers loads of ground in an insightful way, and is consistently inclusive in terms of gender pronouns, roles, sexuality etc. A great guidebook for switches, queers, ladies and everyone else. I especially liked the discussions going deeper than just what and how and into why and how come. This covers a surprising amount of ground.

Not a bad book, but not what I was looking for. And I don't think I'll use it as a reference book, although others might. Book is broken down into chapters featuring short stories by individual authors, followed by a short (several pages) piece as they describe their particular niche in the scene. Not a bad collection; if you're new, or curious to the scene, then this might be your book. It isn't, however, a collection of short "50 Shades" stories, nor an in depth resource book, although it might answer some questions for some, and introduce ideas for others...

This book just seems like it hasn't nailed down what its audience actually is. For example, the two sections of the book both begin assuming you're a rank novice who doesn't know what S&M is an abbreviation of, and who has never played dirty-cop with a sex partner. And that's great - I'm always on the hunt for beginner-friendly books, things I can pass along to my friends for education or entertainment. But then it moves onto essays on animal roleplay, or age play, or Mollena Williams' piece on edge play that includes scenes of rape, incest, gay-bashing, and a bit where a handicapped person gets thrown out of their wheelchair and beaten, and I go "oh thank god I didn't

lend this to anyone yet." Don't get me wrong - these essays are brilliantly written, informative, and interesting, and definitely worth reading, but they are probably not necessary or useful in a book that *seems* to be aimed at beginners. So, in short, even though it seems (to me) like a book for newbies, I would NOT recommend it for beginners or novices unless they're unflappable or you're trying to scare the pants off them, or they're reading it in conjunction with many other books on the subject.
