Grade Level: Preschool - Kindergarten

Customer Reviews

Cute, interesting and engaging little book that keeps the Grandkids entertained. Nice way to keep them happy and exercise their brains. A good way to encourage Imagination and learn new things in the process...that's is always a good thing!

The Lego City books are one of my Grandson's favorite series, and at a great price

Grandchildren reading and ready to read enjoy the story, and the pictures in this excellent book.

This is a nice way to encourage beginning reading, especially if someone likes Legos! I don't think I will be buying the other more advanced readers that have a Lego theme, because they are more

action packed.

My son loves trains and he loved this book as well bought this along with a few more Lego books for him.

My 5 year old son loves this book! Great for early readers and he loves both trains and Legos. What more can he ask for! Contains many early sight words and is one of his favorites. Highly recommended for any young reader!

My 4 year old son loves all the Lego City books. He's not reading yet, but we have started doing some word recognition with these books. He regularly chooses this and his other Lego City books for us to read to him. The text is very simple, the pictures have enough detail to keep his interest and the story is short but complete. Unlike some other beginning readers where the story is boring and almost nonsensical, this one is a winner.

Bought this for my 4 year old as he has been interested in Legos a lot lately so this book was a nice stocking stuffer at x-mas. He enjoys it very much with the big colored pictures and the fact that everything looks like it was made with Legos. I like that the book is not too long so it keeps both of our interests until the end. This would also be a good book for children a little older that are learning to read.
