"It had been many years since the release of a nondenominational hymnal especially for children. Hendrickson Worship has changed that with the launch of "The Kids Hymnal" products. Bright illustrations and an affirmation and application lesson for each song make the new songbook the perfect way for churches and parents to share their musical heritage with elementary school-aged kids." 'There's a need to reintroduce children to the theology and music of the founders,' says "Kids Hymnal" creator and prolific children's author Stephen Elkins. "The great hymns of Wesley sing of the glory of God and use some pretty deep words. That's OK, isn't it? It gives parents an opportunity to speak of grace in simpler terms and explain the meaning. Jesus said, 'Let the children come to me,' so His message must certainly be applicable to them. So much of today's Christian music is very repetitive and lacks the spiritual depth found in the hymns.'"Elkins also points out that music is an excellent educational tool. 'That's what hymns are: educational/praise songs that teach us about the Lord,' he says. But isn't the frequently archaic and stylized language of many hymns too difficult for young children? For example, modern kids--most of whom haven't been on a farm--report misunderstanding 'bringing in the sheaves' as 'bringing in the sheep,' '...the sheets,' or even 'bringing in the cheese.' In addition, the hymn is correlating physical farm produce with spiritual fruit--not a simple concept. Elkins argues that "The Kids Hymnal" addresses just this problem. 'I would call [hymns' language] traditional language, which gives [kids] a little taste of history' Elkins says. 'And that's how I like to frame it with kids: Listen to the language of our great-great grandfathers. Some might argue that the content is over the head of a 4-9 year old,' he adds. 'To safeguard against that happening, we included an 'About This Hymn' section on every hymn page. Kids can read an explanation of difficult terms or concepts." For example, Elkins says, 'in the song 'Come Christians, Join to Sing,' a child comes to know what it means to be a Christian. The affirmation in this hymn is 'I will sing to the Lord,' for I am a Christian. We apply the verses to the

child's life and then the child speaks or affirms the principle' Besides applications lessons, affirmations, and illustrations by Tim O'Connor, "The Kids Hymnal" features melody lines, lyrics, and guitar chords; stories behind the hymns; and indexes by title and topic. Correlating products include a piano accompaniment book; a split-track, three-CD set; and a sing-along DVD with the words printed on the screen. Each product includes all 80 featured songs and hymns, grouped by categories: - Hymns- Sunday-school classis such as "Deep and Wide"- Scripture songs to help kids memorize God's Word- Songs based on Jesus' teachings- Seasonal songs, including Christmas carols and Easter melodies"Unison arrangements are in easy-to-sing keys, for use in children's choirs in churches and schools, or for simple family fun at home. The CDs and DVD feature the popular Wonder Kids Choir (100 All-Time Favorite Bible Songs, The Jabez Prayer Song Collection). The hymnal released in October 2007, the correlating products in August 2007, and all except the accompaniment book carry a \$9.97 introductory-value retail price. 'The kids love these songs,' Elkins says. 'They have a modern sound without all the heavy drums and guitars--no heavy rock, no rap. Don't get me wrong, the rhythms are fun and engaging, but they still meet the 'conservative' standard. [Kids] like learning these 'big church' songs in an easy way,' he says. 'They sound great when they sing, and it's really good for their confidence.... Kids love singing out of their own hymn book, too. Most are accustomed to the words being up on a screen without the notes. How excited they are when they begin to understand how to read the music notes, even if it's in a general way.'--"CBD Retailers + Resources" It had been many years since the release of a nondenominational hymnal especially for children. We bought this book to have a resource for kid's songs to supplement our hymnal that we use at home, as we wanted our son to be exposed to the hymns and children's songs we grew up singing. On the plus side, there are many more hymns and familiar songs than not, and kudos to Stephen Elkins and John DeVries for leaving songs like "Jesus Loves the Little Children" in its original form rather than changing the chorus to be more PC, like the Baptist Hymnal has done. I'm also thrilled at

any hymnal for kids, as I was dismayed recently to see 4th graders at our church stand silently while the rest of the congregation sang "Victory in Jesus" because they obviously had never heard the song. Our church has gone the way of many others, using only PowerPoint slides for the words of the songs (only about a third of which are hymns anyway) and I have a feeling the children's choir and worship time includes no hymns at all. On the negative side, of the 80 songs, 27 were written by the Mr. Elkins, and I guess I was expecting all the songs to be familiar hymns or children's songs, rather than original compositions. The original songs are also, like most modern songs, syncopated and somewhat harder to play and/or sing than older songs/hymns. Overall I'm pleased with this book - we just probably won't use much of the original content and stick to the hymns and older songs.

Unfortunately, it doesn't just play what is written in the music sheet book. I was planning to give it to my piano students, so they can choose what accompaniment they like. However, the piano part is way different, so it doesn't do the needed function. But, anyways, it is a good choice and an easy way to preview the songs without sight reading and spending time remembering what song this is. It just wasn't something I expected.

My daughter loved the second disc in this set. One day it stopped working and she was so upset. I search everywhere for it and only found it here at a reasonable price. I love it and my kids really enjoy all of the songs!

While I think it's a good value, a few of the songs are traditionally slower songs have been changed to more upbeat ones. We'd like to use a couple for the invitation time, but were a little disappointed when we turned them on and fast music started! It seems like kids under the age of 10 or so enjoy this better than 11 or 12 year olds, who think they're too big for "kid" music. I gave it 4 stars because there is quite a variety, some of the songs were a lot of fun, and the tracks can be split so we can sing without the CD singers. I would recommend this for a younger group of children.

My daughter really likes this hymnal. I thought it was going to come with a cd but the cd is separate. But it's a pretty good hymnal for kids because it has pictures.

I want my grandchildren to know the great hymns and experience the joy, comfort, encouragement and solid doctrine from them!

We went online looking for children's hymnals and didn't find much. This was by far the best option we found. I love that the melody line is printed and that children can learn "when the notes go up, your voice goes up. . ." because so much of our congregational singing is without printed music. I liked the colorful cover and the size. It fits easily with a child's Bible. The author printed a brief, "The Reason We Sing" and "Affirmation" with each song, and these are useful. However, I'd still like to duplicate more public domain hymns for my class and replace this very good but incomplete resource. Of the 80 hymns and songs, only 30 are hymns. We liked it enough to buy copies for all our primary Sunday School students. If you want a good mix of hymns and choruses you would give this 5 stars.

The description indicates it is a CD and a full color hymnal. However, I opened the package and there was no hymnal included.
