This is an amazing read that is sexy and intriguing and will hold your attention and heart from the first page. Garrett Flynn is an ex Navy Seal working for Stealth Security protecting celebrity clients. He shows up at a charity event raising money for wounded soldiers in hopes of relaying a message to Marlene Parks from her brother that died in battle several years ago. What he doesn't expect is a madman taking a shot at Marlene and becoming her bodyguard when he saves her life. Garrett is already half in love with her from the stories shared by her brother, Andrew, and feels he already knows her. Marlene has worked her tail off to get where she is as an actress and refuses to hide. She feels an attraction to Garrett she has never felt but she will not get involved with a military man after losing her father and brother to battle. As the threats from Marlene's stalker escalates so does the attraction they can no longer fight. What happens when her stalker gets too close and Marlene learns that Garrett knew her brother?? Will Garrett loose Marlene to her stalker or the secret he hides?? This book is a must read!!! I loved everything about this book from the first page till the end. A sexy alpha that wants to stay out of the lime light but has a tender and caring side and an actress that has survived the pain of loss and struggles to move forward.I voluntarily reviewed an ARC of this bookThank you Emily Jane Trent for another sizzling winner

All Garrett wanted to do is make sure Marlene was safe. He owed her deceased brother that much and more. The rest was just his instinct to protect her. When he saw the strange man go for his weapon all he could do was shield her. The rest did not matter.I love Garrett. He is decisive, protective, and a man of honor. Being a retired SEAL, all these qualities are a given. He is sworn to protect Marlene, even from himself. He owes her explanations, but until her life is no longer in danger, he will be her bodyguard and control his feelings for her. Rule number one ~ never fall for your client.Judging from this first book in the Stealth Security series, we are in for an amazing ride of suspense, thrills, and passion. I connected with these characters as if they were old friends. The emotional pull between them made this story memorable for me. Feeling the fear Marlene was experiencing had me seating at the edge of my seat. Yet somehow, she knew that Garrett would be there for her and would save her. I want more!

I absolutely love Emily's creative stories. A beautiful and suspenseful mystery and love story between Marlene and Garrett. He has been in love with her since his connection with her brother

Andrew in the military. But the guilt he felt for Andrew's death is overwhelming. It does not stop his attraction towards her and he becomes her bodyguard, protecting her against an unknown assassin. As the story develops and their attraction develops the killer gets closer. Once you start the story you will not put it down til the finish. Love her books

I enjoyed this love story/thriller. Stealth security and the sexy bodyguard Garrett meet up with a movie star just in time to help with a psycho stalker. But there's a secret that must eventually be revealed. This was a cool story with a few interesting subjects underneath the main plot. Steamy and Suspenseful at the same time. Can't wait to read the next installment of this series.

I really loved it Cold Peril. It sounds like a fairly standard novel of romantic suspense which I greatly enjoy but it doesn't fall in to any of the stereotypes beyond the general trope. The characters are completely sympathetic and the build up of their relationship takes time. We know they will end up together but I found myself cheering for them to make it because they mattered to me. He is an retired SEAL working as a high risk body guard. She is a movie star with an extremely delusional stalker who proves early on that he is willing to kill her if that is what it takes to make sure no one else gets her. I will definitely be reading more books by Emily Jane Trent!!!

I loved this book. Had the right amount of action and romance. The plot was great. I am always into reading about Seals.

Oh sexy Garrett! Garrett is drawn to Marlene through a connection he made with her brother in the military. Sadly, Marlene's brother didn't make it but he made a promise to protect her. When he first encounters her, he ends up saving her from a shooter which leads to him becoming her bodyguard. Marlene is a successful actress and is used to everyone wanting something from her. Garrett is a breath of fresh air, he just wants to protect her. She is drawn to his alpha ways but will he cross the barrier of employer/employee. Add in the multiple POV, including our shooter, and you have a great romance/suspense journey to sink into.

What an amazing story. How life is as an actress. How that intertwines with a stalker and an former Seal. That this stalker was so delusional. That he wanted her for himself. That the bodyguard was not right for her. That if he could not have her. That no one can have her. This turned her life completely inside out. She was having fundraisers to help the military Veterans and their families out.

Because she have going this stalker any respect. He thought after all I'm a hero in his eyes. But really he was kicked out of the service because of his temper and really couldn't handle Military life. Her bodyguard know about her brother death in the war. So did the stalker. But what happens to her was not the fault of her bodyguard. He did try to save her brother. But the wounds he had to to bad. But her brother gave him a message to give his mom and sister. That he love them and love doing what he doing. Serving his country for his family to have their freedom. This is a must read book for everyone to read.
