## Customer Reviews

Kevin and Carina head out to their modest cabin for a week's vacation, intending to work on relaxing, recharging and making a baby. Due to crossed wires, three of Kevin's guy friends show up, also for the week. It would be awkward to send them away. And they walk in at an embarrassing moment, as Kevin and Carina—who's uptight—are going at it. Kevin worries that they'll throw cold water on the time he's trying to make. He's a little threatened by their being there, but also, without understanding why, aroused by the attention they're paying to Carina. I wasn't really convinced by

Carina's transition from uptight, organized, inhibited wife, appalled that others walked in while her husband was going down on her, to the wild woman ready to cuckold her husband with all his friends. It happens too quickly. Still a sexy read.

This book was bananas! It was one of those books that starts real slow and then never even traps the breaks! I thought it was going to take its time since the story sound like it would work a whole week. There was some good build up but then it was a freefall all the way to crazy town. I loved many parts of the book but some felt wasted. I prefer slow seduction and this send to start slow but then went full speed. I say try it! You might like it!

This is the first book i have read by this author and i cannot wait to read more. A super smoking hot taboo read and i just loved it once i got into it first bit was a little slow but don't give up once it picks up you wont be able to put it down would recommend. I voluntarily reviewed an Advance Reader Copy of this book.

I received a free copy of this book via Booksprout and am voluntarily leaving a review. This my first book by this author. It was super sexy and had my heart pounding, however, im a little leary about cheating. However it was a very good book. Looking forward to more of his work.

I love the water and outdoors. It's such a great setting for sex. This story is very exciting and the sex described in a way that keeps you wanting more....just as the author intended. Nice ending, happy ending, can't wait for the next vacation!

This was one of Lenov's hottest stories yet. Don't miss it. Is it believably well this is fiction right so yes.

This is the first book by this author but it wont be the last. This book is super hot! You need to have an open mind when reading this book as a married woman does have multiple other partners while her husband watches. This is a must read for all that like a little taboo with their hot reads! I received a free copy of this book via Booksprout and am voluntarily leaving a review.
