Overall a good map of Germany. It was detailed enough for driving off the main autobahn. At gas stations along the autobahn we found more detailed, regional maps for about \$12.

The only problem I had was I must not have read that it is all written in German. Very hard to find where places are but I will figure it out.

Great map. Lots of detail. Didn't expect it to be so big but it folds nicely.

The map is easy to read and I like it that all the highways are numbered/named, but it is larger than I expected...although that's not a problem.

Not good for a road map when it is in two sections (front and back). I want to see the whole country on one side and not so spread out. How can you use that in a car or even in an arm chair?

Best map.

When the GPS didn't work, we had to rely on an old-fashioned map. Glad we had it!

Great. Helps supplement Google map app
