# Planet X

## Synopsis

Krisa Elyson is a bride-to-be-bought and paid for by a stuffy aristocrat. Though she secretly longs for just one adventure all on her own, she knows the reality of her life - she is destined to be the wife of the elderly and pompous Lord Radisson. Kurt Teague is a prisoner - a galactic criminal wanted for multiple murders. He is also Feral, a proud and savage people known for their indomitable wills to survive and their fiercely possessive natures. His tortured past has turned him into a ruthless killer - an unthinkable fate to the innocent, sheltered Krisa. Resigned to her destiny, Krisa boards the starship that will take her to another planet and her loveless marriage. In the cargo hold, she stumbles across Teague - so fierce a prisoner he's blindfolded and chained to a wall. Even so, her heart jumps at the sound of his deep, gravelly voice. When the ship crashes onto an uncharted jungle planet, Krisa has no choice but to trust the menacing convict with both her virginity and her life. Yet, on a world filled with ravenous telepathic beasts and cannibalistic natives, Krisa discovers that the gorgeous and mysterious Teague may be the most dangerous animal of all.

Romance

## Customer Reviews

At about 60% into the book, I decided that if "Briar Rose,"(her finishing school) her virginity and the fact that the hero would not force himself on her was mentioned in the next 3 pages, I would not go on; It did and I didn't. These plot devices were brought up adneasuem, literally every 2-3 pages, ough.Pretty decent writing. World building, character development; she has a good sense of moving the story along and painting the surroundings and environment in your mind. I just couldn't get past that the whole premise of the book was developed around the three aforementioned facts. I guess it

could appeal to some, just not for me.

I really did love this book after the first chapter or two. Once Teague and Krisa were off the ship and stranded on the stand and dangerous Planet X, the story came to life and the excitement and super sexual escapades began. I have to say, though, that her first encounters with the chained murderer were pretty interesting. The alien characters and animals they came across during their journey to a small village were scary, sweet and sometimes cute. Kisa kept having dreams of a man who did wonderful things to get, but could not see who it was. She was on her way to meet the older man who had purchased her as his bride. She was very shy and most definitely a virgin, so these dreams were very confusing. Their travels through the sense jungle was fought with short days and dangerous animals who killed as soon as night fell. Slowly their relationship began to change and she became a much stronger woman. Especially when Teague was in danger. The time they spent in the village was rather unusual because of the customs of the villagers. Teague has to "show" them that Kiss belonged to him in order to keep a village male from taking her. Seemed like all their customs were pretty sexual and very erotic in nature. Great book and I read it easy too fast. I think it's a standalone novel which is a shame. I would love this story to continue. There was a lot going on throughout the entire book and kept me totally engrossed. More please.

I want to go to planet X. But only if I can have my own hot Feral. I loved this book. It was like being immersed in different cultures. I can't say that I would want to be part of the so called civilized parts of the cultures. No thank you 18th century. I like being an independent modern woman. I like the being on the run feel in parts of this book and the way the relationship develops for Teague and Krishna. I also love how protective he becomes of her. There are so many, too many great things to say about this book.

Once again Ms Anderson has wowed us with her exciting and sexual stories. This story has quite a few twists and turns which will keep you on your toes. As the characters become more sexually involved with each other, the plot of course thickens. Although the ending was expected, it was interesting to see just how the author intriguingly put it all together. Loved the book and definitely recommend it.

Ok so this book was good but not what I'm used to from Ms. Anderson think the Kindred, Ruby Shadows and that series (it will bug me that I can't remember the series name). That being said the

world building here is amazing. The romance felt a little lacking but we are talking about a woman raised to be mail order bride. I did enjoy reading it though.

So I am giving this story five stars, because I loved it! Having said that I think it is incomplete, the way Evengaline left it, while satisfying left it open for a sequel, Yeaht!. Well I hope she does and that is her plan, if not I will beg beg. I want more of this couple, more of a closing in a full length book, no cheating with a the 100 page filler tipe book. Plus the revenge the H took on X is not in this story, and then there is the litle boy and his pet, where is he, did the H safe him etc etc. But Read this book and get on the band wagon to get more of this wonderful pair. #evangelineAnderson

This is one of the best books I have read in a long time. Of course there was sex. But there was a real story. Yeaaaaa not just bumping uglies. We had our main man who was everything a girl ever wanted and a brain washed girl who finally figured that out. Loved it. Keep theses up

First of all the timing was perfect for another great read from Evangeline. Since it was a re-release, it makes me want to go back and see what I've missed. I found Planet X another easy, exciting and hot read. If I had to put it down, I couldn't wait to get back to it later. Sometimes you don't have to be in a sex scene to have a sexy, hot story line. I thought the book was just about perfect. Loved both main characters and the spin on their personal story as it happened. Amazing. Can't wait until the next good read. Thanks so much. Regular boring novels just don't catch my attention as they use too. You've spoiled me!!!!
