Customer Reviews

This writer has helped me fill in the blanks. Very good and knowledgeable.

thank you... as promised

This book is really out there, which I like! Lots of interesting topics covered. Even the cover is interesting (hint - it looks black, but it's really not all black.) I'm still not done with this book & I'm savoring it. It's that interesting.

Excellent seller. A+ Will recommend to other shoppers.

Love this book. It's rich and covers every aspect of life with revealing truth about the invisible side

and full of practical advises. Worth to read 7 times, so I'm going to get a paper copy.

This book is a trip. Hugely detailed descriptions of the purported astral and causal appearances of a broad array of phenomena, from nasty thoughts to rose bushes to church bells ringing. Obviously, for the new disciple there is the distraction of getting caught up in the accounts of these lower planes, but for fun, as a sort of clairvoyant travelogue of the unseen world, entertaining and fascinating stuff. If your meditation is done for the day, relax with this. It beats the ugly news of the world.

This is a great book. Information available for all levels of readers. Leadbeater was a unique man and his writings are invaluable. A personal library wouldn't be complete without this book.

Head's up! This is volume I. I got the impression this was volume II from another review.
