Customer Reviews

Only has a few recipes and none I liked. Don't bother. It isn't worth the money. U might have to look

up the ingredients on google.

Great recipes and well explained

Handful of recipes. Very slim on content. Not for absolute beginners due to unexplained acronyms.

Fast delivery

I'm guessing the author wrote the description of this book and judging by how horribly that's written, I wouldn't waste my time reading any more. I feel that an author should, at the very least, have a grasp of basic grammar if he wants to be paid for his work.

This is a great book for anyone wanting to either try their hand on making their own flavor or just get some ideas on what to try. I would highly recommend this book for everyone. It's all the key information needed to create your juice.
