The Great Bahamas Hurricane Of 1929: The Story Of The Greatest Bahamian Hurricane Of The Twentieth Century

The Great Bahamas HURRICANE *of 1929*

The Story of the Greatest Bahamian
Hurricane of the Twentieth Century

WAYNE NEELY

Foreword by Chris Landsea

Synopsis

"The Great Bahamas Hurricane of 1929, also known as the Great Andros Island Hurricane of 1929, was the only major hurricane during the very inactive 1929 North Atlantic hurricane season. The Great Bahamas Hurricane of 1929 was perhaps one of the greatest and deadliest hurricanes to impact the Bahamas and is often regarded as the greatest Bahamian hurricane of the twentieth century. It was the only storm on record to last for three consecutive days over the Bahamas, with pounding torrential rainfall and strong, gusty winds. The storm killed 134 persons in the Bahamas, mostly mariners and sponge fishermen, as it directly hit the islands of Nassau and Andros. This thoroughly researched history considers this intense storm and its aftermath, offering an exploration of an important historical weather event that has been neglected in previous study. Also included is a harrowing account of a dog called Speak Your Mind who rescued a sponge fisherman at sea. Through unique historical photographs of actual damage, author and veteran meteorologist Wayne Neely shows the widespread devastation left in the wake of this tremendous storm. Drawing upon many newspaper accounts, ship reports, and Family Island Commissioners reports from throughout the Bahamas, the author provides a fascinating glimpse of this hurricane and the devastation it caused the Bahamas."

Customer Reviews

Downloaded this for my husband

A great description read and author captivates the reader by giving a "3D" description of the events as if you were there
