Confiscated by colonial police throughout the world since its 1957 publication, *The Colonizer and the Colonized* is an important document of our times, an invaluable warning for all future generations.--The Los Angeles Times

Text: English (translation) Original Language: French

Purchased for a class on European Thought in the Post-War period, focusing on France. This book is a good exploration on the subject of the relationship between the colonizer and the Colonized, and explores many concepts found in other works, such as Sartre's *Existentialism is a Humanism*, Césaire's "*Discourse on Colonialism*", and Fanon's "*The Wretched of the Earth*" and "*Black Skin, White Masks*". It is relatively clear, and a relatively easy read

A must-read for everyone who wants to understand how power works, between cultures, social levels, and people in general. The colonization situation can be translated into almost every other human interaction where there is an unequal power.

Clearly an important text, very informational reference, but not to be read just for enjoyment.

Great product, excellent service!

Great product, arrived on time and as listed. Recommended seller.

Excellent.

Classic book, polemic at the time of publication, about who the colonizer is, vis-à-vis the colonized, in a symbiotic relation to one another. Great for a further understanding of the psychological and sociological consequences of colonization.

Coming from Africa, this book written by a french Jew brings to light the issue of racism, colonialism and domination of the oppressed people of the Third World. It provides a philosophical perspective on the situation of the colonizer and of the colonized. Very good book. Thanks
