Customer Reviews

I reviewed several methods to teach a five year old private piano lessons. This one is better for 7-9 year olds. Little kids get distracted easily and I found the pages too cluttered. I have tried Bastiens Piano Party, but I find that it can be overwhelming as well with all three books. I used Alfred's Kids Piano Course for my student because it doesn't have as much on a page. The advantage to the method I am reviewing is that the theory, ear training, and sight training are included in one book. Like I said earlier, a beginner with a longer attention span would probably do well with this method.

Very helpful resource for teaching group piano lessons.

You deserve 5 Stars for sure ! -- Besides the prompt arrival of my order, and the excellent condition in which it arrived, this book reminds me of the piano lesson books of my days as a piano student,

quite some years ago ! -- I am pleased that there are still traditional lesson books available and good companies like yours who take a personal approach to book orders, which I appreciated very much. Thank you for everything, Sincerely, Eugenia Gregoriou-Toth

Good one

Excellent book.

I ordered two. They arrived and are as expected, and my little piano players are hard at work, learning the songs.

My kids went to the piano school, this is the book that they want us to have for practice, nice book, help our kids talent.

What can you say? Alfred makes the best beginner books. Our older teens still look at their younger siblings books and remember how much fun they had with them. If you can make it fun they stick with it and eventually learn to love expressing themselves with the piano. :)
