The Will To Power

Synopsis

In the volume before us we have the first two books of what was to be Nietzsche's greatest theoretical and philosophical prose work. The reception given to *Thus Spake Zarathustra* had been so unsatisfactory, and misunderstandings relative to its teaching had become so general, that, within a year of the publication of the first part of that famous philosophical poem, Nietzsche was already beginning to see the necessity of bringing his doctrines before the public in a more definite and unmistakable form. During the years that followed—that is to say, between 1883 and 1886—this plan was matured, and although we have no warrant, save his sister's own word and the internal evidence at our disposal, for classing *Beyond Good and Evil* (published 1886) among the contributions to Nietzsche's grand and final philosophical scheme, "The Will to Power," it is now impossible to separate it entirely from his chief work as we would naturally separate *The Birth of Tragedy*, *The Thoughts out of Season*, the volumes entitled *Human, all-too-Human*, *The Dawn of Day*, and *Joyful Wisdom*. *Beyond Good and Evil*, then, together with its sequel, *The Genealogy of Morals*, and the two little volumes, *The Twilight of the Idols* and *the Antichrist* (published in 1889 and 1894 respectively), must be regarded as forming part of the general plan of which *The Will to Power* was to be the opus magnum.

Customer Reviews

Nietzsche is definitely full of good ideas, but can be hard to follow. If my book hadn't been already used (although I ordered mine new), I would have loved it.

This man is way ahead of his time and This time , what hÃ" said can not BE denied , hÃ" is THE man who wake,s us up for THE real power within, but only Ã hand full of man can open his words up and use them.

great book. i dont read it page for page, but i use it as a reference book. great philisophical life guide

As I have read many books by Nietzsche and other books by authors that cite this book by Nietzsche, I was a bit shocked by Kaufmann's postface to this book. I've known that this was not a completed work by Nietzsche, but I was not aware as to how far it was from being complete, which is quite substantial. 5 stars for Kaufmann's wonderful and truthful to the text translations, but as for the "philosophy" in it, I recommend one read Nietzsche's words in His released books: Thus Spoke Zarathustra, Ecce Homo, Beyond Good and Evil etc... and Kaufmann's translations are always the best for that.

One of the exemplar's of Nietzschean thought. A well edited edition that works well for Kindle.

Kaufmann is the standard for Nietzsche translations. Profound and indispensable text; easy to read but you have to really work to get even a glimpse of what he is struggling to convey.

my introduction to Nietzsche and an addition to my mind that will last for as long as it does.

excellent!
