Tom Clancy's Op-Center: Line Of Control

Synopsis

It's a mission that only Striker -- the military arm of Op-Center -- can handle: capture an Islamic cleric who is stirring up a rebellion against the Indian government. But when the border between India and Pakistan erupts, the Striker team gets caught in the crossfire. Now America's most proficient covert team is trapped in a full-fledged war. Their fate rests in the hands of a devious double agent whose own agenda is unknown -- a man who could just as easily sell them out as set them free.... A powerful profile of America's defense, intelligence, and crisis management technology, Tom Clancy's Op-Center is the creation of Tom Clancy and Steve Pieczenik -- inspiring this and other gripping audiobooks.

Customer Reviews

Robert Foxworth has appeared in the films Personal Choke, The Black Marble, Damien: Omen II, Prophecy, Airport 77, The Treasure of Matecumbe. He has starred on the TV series Lateline, Malibu Road, and Falcon Crest. On stage, Mr. Foxworth performed on Broadway in Judgment at Nuremberg and Honour, and off-Broadway in Ivanov, Below the Belt, The Crucible (Theatre World Award), and countless other contemporary and classical productions around the country.

This novel establishes the technical and operational plausibility a Tom Clancy product requires, but I had a difficult time gaining traction. I made it a quarter of the way through and I was not interested in characters or plot.

Good read. Interesting to go back and see the characters grow.

A very good book, I had a hard time getting anything else done except read this book. This book gives you the insight of the problem we have with North Korea and some of the other pertinent Islands in the area with their military's. It shows the balancing act that the US Military has with coping in that part of the world and how easy it is to manipulate the events in the area. This Tom Clancy series should be required reading for any one running for the position of President of the United States of America. Better yet, for every one that is old enough to vote in our elections.

Not so sure that this was a work from Clancy. Writing style was really different from the Jack Ryan, John Clark & Campus series'. This book did not hold my interest very well. Poor character portrayals and the story drifted too much. Don't think I'll be reading any more from this series. Big disappointment.

Good story in the Clancy fashion. Had a bit of a hard time keeping all of the main characters straight but the story moved along well and it all became clear as it unfolded.

There's a lot of politics involved, and it struck me that a lot of what's said about the President in this book could be said about any President. Interesting, since this book was written in 1995 or so. Lots of action.

A lot of action with a good amount of suspense. A decent thriller but not my liking. Still worth a read.

This was a good story, but obviously not written by Clancy. I'm surprised he let his name get put on the cover. The details concerning the characters and some of the events destroy the whole fabric of the story. For example, most of the enlisted personnel in the story are cited as being "Privates". In real life, guys with those kinds of knowledge and skills would be senior NCO's. This applies to both the North and South Korean forces and the the US military. Also the team leader would not be a 25-year old Lt. Col. Maybe a 35-year old, but not 25. The author also shows his general lack of knowledge of things military by indiscriminately labeling all military forces the Army. The Army does not operate C-9A Nightengale or C-141 aircraft. The author's lack of knowledge of his characters took the edge off the whole story.
