Customer Reviews

I purchased this for the future as it is rather rare and hard to find. I am not skilled enough to play all the songs as this is the full recorded version, which is the ultimate version that has the music exactly as it was played on the record, but am looking forward to being able to learn and play these modern versions of R Johnson songs.

I'm a fan.

Love it

Finally, Eric Clapton has gone back to what he loves best and does best. This album is absolutely pristine, it is perfect, it is everything it should be. It is Eric Clapton performing, in his own voice and

his own way, that music which first inspired him. And it's absolutely wonderful. Okay, I have to say this, probably shouldn't but will anyway. Some songs I think Johnny Winter did better. But, you know, this is Winter's natural territory. He never had to try as hard as Eric since he was born here in Texas blues. And even despite that, and knowing all these songs and how they have been previously performed by others, I absolutely love this album, think it's Eric's best since 461 Ocean Blvd. Chris Rea did that amazing eleven CD set of Blues Guitars, and now Eric's done Robert Johnson's work, gone back both of them, to their roots. Does this mean, (I hope, I hope!) a Blues Renaissance? We can only hope.
